Vehicle MG	16"/40cm	3	2	6	ROF 1 if other weapons fire.
.50 cal Vehicle MG	16"/40cm	3	4	5+	ROF 1 if other weapons fire.

SPECIAL RULES

Airborne Engineer Combat Platoon (Glider) - p.21

M1919 LMG Teams

You may replace any or all Pioneer M1919 LMG teams with Pioneer Rifle teams at the start of the game before deployment.

Master Sergeant

Parachute Rifle and Airborne Engineer Combat Platoons use the German Mission Tactics special rule (see page 242 of the rulebook).

Supply Handcart

A Pioneer Supply Handcart operated as a Pioneer Supply Vehicle (see page 51 and 263 of the rulebook).

Cavalry Recon Platoon (Veteran) - p.28

DISMOUNT

Before deployment you may choose to dismount your Cavalry Recon Platoon. If you do this, all of the Cavalry Recon Patrols from the same platoon operate as a single platoon.

If you dismount, all of the platoon's vehicles are permanently removed from the game. Replace all of the vehicles in each Patrol with any two of the following teams for each Patrol:

Carbine teams

M1919 LMG teams

up to one M2 .50 cal MG team per Cavalry Recon Patrol

up to one Bazooka team per Cavalry Recon Patrol

up to one M2 60mm mortar team per Cavalry Recon patrol.

Designate any one of the teams as the Platoon Command team. The platoon remains a Reconnaissance Platoon.

Cavalry Recon patrols from Cavalry Recon Platoons operate as separate platoons, each with their own Command team.

Recon Platoons are Reconnaissance Platoons.

Glider Machine-gun Platoon - p.24

A Glider Machine-gun Platoon may make Combat Attachments to Glider Rifle Platoons.

Tank Platoon (Trained) - p.26

DETROIT'S FINEST

Tanks that use the Detroit's Finest special rule have a Movement Distance of 14"/35cm on Roads and Cross-country Terrain.

DUCKBILLS

At the start of the game a player may elect to fit all of their Sherman tanks (of all variants) with Duckbills. This gives them Wide Tracks (see page 61 of the rulebook), but makes their mobility rating Slow Tank.

M4A3E2 Jumbo and M4A3E8 Easy Eight tanks cannot be fitted with Duckbills and ignore the Duckbills special rule.

JUMBO LEADS THE WAY

You may allocate hits to an M4A3E2 Jumbo tank as if it had the lowest armour rating, assigning it a hit before the lesser armoured tanks.

This rule does not apply to hits from Artillery Bombardments or hits from Aircraft.

SMOOTH RIDE

An M4A3E8 Easy Eight tank does not suffer +1 penalty to its score To Hit when using the Stabilizers special rule, provided that it did not move more than 6"/15cm during the Movement Step and it did not move in, enter, or more out of Rough Terrain.

TANK TELEPHONE

If a Tank team with Tank Telephones and an adjacent Infantry team did not move in the Movement Step, and the Infantry team is not Pinned Down, the Infantry team can use the Eyes and Ears rule (see page 195 of the rulebook) to Reveal one Gone to Ground enemy team to that Tank team as if the Infantry team was a Recon team. If other tanks in the platoon fire, they must either have their own Infantry team pointing out the targets or continue to treat the target as Gone to

Ground.

You can upgrade your M4 or M4A1 Sherman tanks from the Tank Platoons to newer models. For each tank you wish to upgrade, simply add the points (found to the right) that match the skill rating of the Tank Platoon you have chosen to the cost of the platoon.

For example, in one of your full-strength Trained Tank Platoons (320 points), you would like to upgrade one tank to an M4A3E2 Jumbo, two tanks to M4A3 (76mm), and leave the rest as normal. This adds +50 points for the Jumbo upgrade and +45 for each of the 76mm upgrades, for a total cost of 460 points for the platoon.
