SPECIAL RULES

Breaching Group - p.26

AVRE Special Rules:

Fascine and SBG Bridge: At the start of the game after Fortifications (if any) are placed, but before Deployment, you may elect to mount a Fascine or Assault Bridge on any or all of your AVsRE. An AVRE that has a Fascine or Assault Bridge mounted cannot shoot. In addition, an AVRE that has an Assault Bridge mounted is Overloaded rather than Wide-tracked.

Fascines act as Assault Bridges (see page 226 of the rulebook), but may only be used to bridge ditches and craters. An AVRE may abandon its Fascine or Assault Bridge instead of shooting, removing the Fascine or Assault Bridge from play.

Petard Mortar: The Petard mortar shoots as a normal (although very short-ranged) gun. Any Armoured vehicle hit by a Petard mortar uses its Top armour rating for its Armour Saves.

Demolishing Obstacles: An AVRE may attempt to gap an Obstacle. The AVRE must not move in the Movement Step, and must be able to draw a Line of Sight to an Obstacle and be within 4"/10cm of it to attempt to gap it. Roll a Skill Test for the AVRE in the Shooting Step instead of shooting.

- If the test is successful, the Obstacle is removed (unless it is a Street barricade, in which case it is gapped),
- Otherwise, it remains intact.

Breaching Group Special Rules:

Breaching Force: A force that includes a Breaching Group Always Attacks and, if it is an Infantry Company, is considered a Mechanised Company for the purpose of the Armoured Reserves rule found on page 269 of the rulebook. Teams from a Breaching Group may only be held in Reserves in missions with the Mobile Reserves special rule.

Gun Tanks Forward!: At the beginning of the game before Deployment, you may remove any or all AVRE Sections from Breaching Groups, adding a single Sherman Crab Flail tank to the Group's Flail Section for each AVRE Section removed.

Sherman Crab Special Rule:

Crab Flail Tanks: Sherman Crab Platoons use the rules for Mine Flails and Rollers on page 226 of the rulebook.

Although a Breaching Group is a single Support choice, each Section operates as a separate platoon with its own Command team. The D7 Bulldozer is an Independent tank team.

When determining the number of platoons that must be held in Reserves and the number of platoons Deployed on table, treat each Breaching Group as a single platoon.

Teams from all Sections of a Breaching Group are always Non-assaulting teams when involved in an assault. However, a D7 Bulldozer may assault Bunkers.

Carrier Platoon - p.22

Carrier Patrols equipped with Universal Carriers are Reconnaissance Platoons.

Carrier Patrols equipped with Wasp Carriers are not Reconnaissance Platoons.

Carrier Patrols operate as separate platoons, each with their own Command team.

Rifle Company HQ - p.21

A Rifle Company (page 20) uses all of the British special rules found on pages 246-248 of the rulebook. They also use the following special rules below.

At the start of the game a player may elect to fit all of the following tank types in their force with Duckbills:

- Ram Kangaroo APC
- Sherman DD
- Sherman I or V
- Firefly IC
- M10C 17pdr SP
- Sexton self-propelled gun

This gives them Wide Tracks (see page 61 of the rulebook) but makes their mobility rating Slow Tank.

If a 2iC Command team with a Bagpiper is Destroyed by enemy shooting, the enemy rolls to Destroy the 2iC Command team using the Warrior Infantry Team Casualties rule on page 106 of the rulebook. However, instead of requiring a 4+ to Destroy the 2iC Command team, the enemy player needs to roll a 5+ to Destroy the team. Any hits on the 2iC Command team do not count towards Pinning Down the platoon or making it Fall Back from Defensive Fire.

Rifle Platoon - p.21

Using Armoured Personnel Carriers

If any of your Rifle Platoons have an Armoured Personnel Carrier Section, then all Rifle Platoons in your company must also have Armoured Personnel Carrier Sections.

All Armoured Personnel Carrier Sections in your force must be equipped with the same type of vehicle.

When making a Night Attack, Rifle Platoons equipped with an Armoured Personnel Carrier Section may still make a Spearhead move, even though the platoon is not entirely made up of Infantry Teams.
