SPECIAL RULES

Field Battery, Royal Artillery - p.10

Each Gun Troop operates as a separate platoon with its own Command team.

The Command team and Staff team of the HQ Troop must be attached to a Gun Troop from its battery at the start of the game before deployment (see page 248 of the rulebook).

Lorried Carrier Platoon - p.4

Carrier Patrols are Reconnaissance Platoons.

Carrier Patrols equipped with Wasp Carriers are not Reconnaissance Platoons.

Carrier Patrols operate as separate platoons, each with their own command team.

Lorried Rifle Company HQ - p.3

At the start of the game a player may elect to fit all of their M10C 17pdr SP, Sherman ARV, or Sexton tanks with Duckbills.

This gives them Wide Tracks (see page 61 of the rulebook) but makes their mobility rating Slow Tank.

Infantry teams have a 3+ Save while Mounted on a Tank team as Passengers instead of the normal 5+ Save (see page 101 of the rulebook).

SAS Troop - p.8

SAS Sections are Reconnaissance Platoons.

SAS Sections operate as separate platoons, each with their own command team.

Unconventional: SAS Sections use the German Mission Tactics special rule on page 242 of the rulebook.
