SPECIAL RULES

Canadian Armoured Squadron HQ - p.149

At the start of the game a player may elect to fit all of their tanks from the following list with Duckbills:

- Sherman (all variants)
- Firefly VC
- M10 3" (SP)
- M10C 17pdr SP
- Sexton Self-propelled gun
- Ram Kangaroo APC

This gives them Wide Tracks (see page 61 of the rulebook) but makes their mobility rating Slow Tank.

Canadian Companies and Platoons follow all the British special rules on pages 246 to 248 of the main rulebook except British Bulldog and have the following additional special rules.

Canadian Platoons do not use the British Bulldog special rule. Instead any Canadian Platoon may re-roll failed Motivation tests to rally from being Pinned Down or remount vehicles after being Bailed Out.

Canadian Platoons use the German Mission Tactics special rule (see page 242 of the rulebook).

Canadian Scout Platoon - p.158

Although PIAT Battery Carriers are rated as Rocket Launchers (see page 138 of the rulebook), they do not use the Fire in the Sky rule.

A Carrier Patrol with PIAT Battery Carriers may roll a Skill Test after firing. If it passes, the platoon may move up to 4"/10cm away from all enemy teams that it shot at.

Scout Patrols equipped with Universal Carriers are Reconnaissance Platoons.

Scout Patrols equipped with Wasp Carriers are not Reconnaissance Platoons and may not launch assaults, nor may they Counterattack if assaulted.

Scout Patrols operate as separate platoons, each with their own command team.

Field Battery, RCA (Canadian) - p.183

Although a Field Battery, RCA is a single Support choice, each Gun Troop operates as a separate platoon with its own Command team. The Command team and Staff team of the HQ Troop must be attached to a Gun Troop from its battery at the start of the game before deployment, see the British Artillery special rules on page 248 of the rulebook.

Observer Sherman OP tanks cannot launch assaults.

Rifle Platoon (Canadian) - p.165

All Rifle Platoons in your force with a Transport Section, must be equipped with the same type of vehicles.

When making a Night Attack, Rifle Platoons equipped with a Transport Section may still make a Spearhead move, even though the platoon is not entirely made up of Infantry Teams.
