SPECIAL RULES

Hero Inzhenerno-Saperniy Batalon HQ - p.5

Bed Spring Armour

If a tank protected by Bed Spring Armour fails an Armour Save against a weapon with a Firepower of 5+ or 6 hitting its Side armour, roll a special 4+ Bed Spring Armour save:

- If the save is successful the Bed Spring Armour protects the tank from the side shot.
- If the save is not successful the shot penetrated the Side armour as normal.

Building Destroyer

In addition to the normal Bunker Buster rules, if a 203mm obr 1931 howitzer Hits a team in a large building with multiple rooms, all the teams in rooms adjacent to the target team's room and those rooms above and below the target team's room are also Hit.

Cat Killers

SU-85, SU-85M, and SU-100 assault guns from a Assault Gun Company do not use the Volley Fire special rule. Instead, SU-85, SU-85M, and SU-100 assault guns from a Assault Gun Company that did not move in the Movement Step may re-roll failed rolls To Hit when shooting their main guns at platoons with all teams more than 16"/40cm away.

Engineering Assault

A Hero Inzhenerno-Saperniy Batalon Always Attacks against any other Infantry Company.

Sapper Body Armour

A team with Sapper Body Armour rolls a die when hit during an Assault.

If they score a 6, they are unharmed, but still count as hit for the purposes of requiring a Motivation Test to Carry on with the Assault or Fight Back.

If they roll any other score, they are Destroyed and removed from the table as usual.

Smoke Pots

A platoon (Soviet company) with Smoke Pots may designate Rifle, Rifle/MG, MG or SMG teams as Smoke Pot teams to lay smoke for an assault. A Smoke Pot team cannot shoot in the Shooting Step and is a Non-assaulting team during the Assault Step.

When the platoon (Soviet company) launches its assault, roll a Skill Test for each Smoke Pot team within 4"/10cm of a platoon being assaulted. If any Smoke Pot team passes the Skill Test then all teams from that platoon (Soviet company) participating in the assault are Concealed.

A Hero Inzhenerno-Saperniy Batalon HQ is equipped with Sapper Body Armour.

Hero companies and platoons from a Hero Inzhenerno- Saperniy Batalon (page 3) and Hero Corps Support (page 7) use all of the normal Soviet special rules on pages 249 to 252 of the rulebook (except for Hen and Chicks). In addition they the use the Luckier, Smarter, and Sharper special rules.

Hero platoons and companies do not use the Hen and Chicks special rule.

If the Company or 2iC Command team is Destroyed, your opponent must roll a 5+, rather than the normal 4+, when rolling for Warrior Team Casualties (see page 106 of the rulebook).

In addition to the normal Soviet rules and the Heros of the Soviet Union rules, Soviet companies also use the following special rules.

Teams from Hero platoons and companies pass all Skill Tests on a result of 3+. In addition, when firing bombardments, Hero companies roll to hit as though they were rated as Veteran.

Hero Inzhenerno-Saperniy Company - p.5

A Hero Inzhenerno-Saperniy Company is unusual in that the composition of the company can change from game to game. Each Assault Sapper Platoon can replace up to two Pioneer SMG teams with teams from the following list:

Pioneer MG team

PTRD anti-tank rifle team

Maksim HMG team

82-BM-41 mortar team

Pioneer Panzerfaust SMG team

The teams swap one team for another single team. Each Hero Inzhenerno-Saperniy Company cannot have more than four teams of each type listed above.

You must choose the composition of your Hero Inzhenerno- Saperniy Companies for each game before deployment

begins.

A Hero Inzhenerno-Saperniy Company uses the Smoke Pots special rule on page 3.

A Hero Inzhenerno-Saperniy Company, including any attached Flame-thrower teams, is equipped with Sapper Body Armour.

Hero Sapper Spetsnaz Platoon - p.7

A Hero Sapper Spetsnaz Platoon is a Infiltration Platoon. They may Infiltrate a Hero Inzhenerno-Saperniy Company. See the Infiltration rules on page 250 of the rulebook.

A Hero Sapper Spetsnaz Platoon is a Reconnaissance Platoon.

Hero Sapper Spetsnaz Platoons are an exception to the Centralised Control special rule. They operate as a normal platoon.
