Special Rules

Team (2 men)

(p73) A Team weapon shoots at full effectiveness so long as there are at least two men to serve it. If only one man remains then the weapon suffers a -1 to hit penalty, and (p42) -1 penalty to its morale. For squad-based team weapons, loader must remain within 1" or weapon suffers the -1 to-hit penalty.

Tough Fighters

(p91) When a tough fighter scores a casualty in close quarters against infantry or artillery, it can immediately make a second damage roll.

Spotting

Hidden enemy units are revealed if a dog team move to (or is deployed) within 24" of them.

HE (1")

(p68) PEN: +1, PIN: D2 (D3 if in building) - Infantry and artillery can go down to halve the hits taken

Assault

(p66) This weapon suffers no penalty 'to hit' when moving and shooting. In addition, infantry models armed with an assault weapon count as tough fighters (page 91). When a tough fighter scores a casualty in close quarters against infantry or artillery, it can immediately make a second damage roll.

Vulnerable

Because of the reveted construction, all shots to the side and rear of the vehicle get an additional +1 penetration modifier

Sniper (Sniper with rifle & pistol- Spotter with pistol)

(p91) When a sniper shoots using a Fire or Ambush order, the player can decide to use his scope. Rifle range changes to 36". If target is within 12" the shot misses automatically. Shot ignores negative to-hit modifiers except pinning markers and for missing assistant. Shot ignores gun shield and extra protection rules. If successful, always counts as exceptional damage and can pick any model in the unit. When not using scope, all members of team can fire any weapon they have and in assault can use the assault rule if pistol/submachine gun.

Internal volatile fuel tanks

Flame-throwing vehicles are more likely to be destroyed by damage, as explained on page 68 of the rulebook

Gyro-stabiliser (Veterans only)

Weapon does not suffer the -1 'to hit' penalty for shooting and moving if the crew are Veteran. This does not apply to vehicles with Inexperienced or Regular crew, nor does it apply to any co-axial machine gun.

Flamethrower

(p67).Flamethrowers never suffer to-hit penalties for cover or Down. Hits multiplied into D6 (D6+1 for vehicle flamethrower). Always hits top armour. No -1 PEN for long range. Gun shield and extra protection rules do not apply. Units hit take D3+1 pins and must always check morale (if fail, then destroyed). Flamethrower rolls D6 - on 1 it runs out of fuel. When rolling to damage vehicle with flamerthrower, add +1 to damage effects chart.

Flak

All enemy units not currently down automatically fire at the attacking aircraft if it is within their firing arc and range, regardless of whether they have already taken an action or not that turn. Flak fire does not require an action. Line of site ignored. Rolls to hit aircraft are always at a -2 penalty. Friendly flak units must test to hold their fire (page 67)

Pick List

United States

Air Force Forward Observer	1
Flamethrower (infantry) (requires assistant)	1
Infantry with BAR M1918A2 Automatic rifle	9
Infantry with Rifle	28
Infantry with Submachine gun	3
Jeep (no transport)	1
M3A1 Stuart light tank with flamethrower	1
NCO with Rifle	4
NCO with Submachine gun	2
Second Lieutenant	1
Sniper team	1
USMC War Dog team	1
