Special Rules

One-shot

(p72) This is a disposable weapon that can be fired only once per game. Once fired replace the model with another model that does not carry the disposable weapon

Open-topped

(p118) Pinned by hits from small arms in the same way as soft-skins and infantry. If assaulted by infantry open-topped armoured vehicles are destroyed automatically if the vehicle is damaged, in the same way as for soft-skins. If hit by indirect fire then add +1 to the damage result roll. Note that all hits upon the upper surface of armoured vehicles count +1 penetration regardless of whether the target is open or not - so open-topped armoured vehicles suffer a double penalty: +1 penetration and +1 damage result

Recce

(p118)

Recce (Dual direction steering)

(p118)

Shaped Charge

(p73) Never suffer the -1 penetration modifier for firing at long range.

Team (3 men)

(p73) A Team weapon shoots at full effectiveness so long as there are at least two men to serve it. If only one man remains then the weapon suffers a -1 to hit penalty, and (p42) -1 penalty to its morale. For squad-based team weapons, loader must remain within 1" or weapon suffers the -1 to-hit penalty.

Team (4 men)

(p73) A Team weapon shoots at full effectiveness so long as there are at least two men to serve it. If only one man remains then the weapon suffers a -1 to hit penalty, and (p42) -1 penalty to its morale. For squad-based team weapons, loader must remain within 1" or weapon suffers the -1 to-hit penalty.

Stubborn

(p91) If forced to take a morale check, they ignore negative morale modifiers from pin markers. Remember that order tests are not morale checks.

HE (1")

(p68) PEN: +1, PIN: D2 (D3 if in building) - Infantry and artillery can go down to halve the hits taken

HE (2")

(p68) PEN: +2, PIN: D3 (D6 if in building) - Infantry and artillery can go down to halve the hits taken

Fanatics

(p90) When a fanatic unit loses half of its numbers from enemy fire, it does not take a morale check so long as it has at least two men. Fantic units with at least two men are not destroyed when they have a number of pin markers equal to their morale value. When a fanatic unit is defeated in close quarter fighting, the fight counts as a draw instead and another round is immediately fought. Continue fighting until the fanatic unit wins, is completely wiped out or is defeated and left with a single model in which case it is destroyed.

Behind enemy lines

When Outflanking, ignore the -1 modifier to the Order test for coming onto the table

Assault

(p66) This weapon suffers no penalty 'to hit' when moving and shooting. In addition, infantry models armed with an assault weapon count as tough fighters (page 91). When a tough fighter scores a casualty in close quarters against infantry or artillery, it can immediately make a second damage roll.

Sabotage!

Enemy units in Reserve suffer an additional -1 modifier on the test to come on to the table. In addition, outflanking enemy units must take another test when they become available (still with an additional -1 modifier), and if they fail it, they can only be deployed up to 12" from their table edge along the chosen short table edge

Paranoia

When the enemy rolls on the Fubar chart, they suffer a -2 modifier to the roll, such is the paranoia induced in the enemy by this squads irregular activities

Indirect fire

(p71)

Gun shield

(p95) The die roll an enemy requires to score damage from the front arc of the gun is increased by +1. The die roll is modified by the penetration value of the weapon in the usual way. Hits from HE (both direct and indirect), flame throwers, and close quarters attacks ignore the gun shield rule.

Flamethrower

(p67).Flamethrowers never suffer to-hit penalties for cover or Down. Hits multiplied into D6 (D6+1 for vehicle flamethrower). Always hits top armour. No -1 PEN for long range. Gun shield and extra protection rules do not apply. Units hit take D3+1 pins and must always check morale (if fail, then destroyed). Flamethrower rolls D6 - on 1 it runs out of fuel. When rolling to damage vehicle with flamerthrower, add +1 to damage effects chart.

Flak

All enemy units not currently down automatically fire at the attacking aircraft if it is within their firing arc and range, regardless of whether they have already taken an action or not that turn. Flak fire does not require an action. Line of site ignored. Rolls to hit aircraft are always at a -2 penalty. Friendly flak units must test to hold their fire (page 67)

Fixed

(p66) When given Advance order, fixed weapons can rotate on the spot suffering a -1 to-hit penalty. Non-artillery Fixed can move normal 12" when given Run order.

Spotter

Spotters rules on page 71. Inexperienced Spotters cannot spot for inexperienced indirect fire weapon.
