Special Rules

Open-topped

(p118) Pinned by hits from small arms in the same way as soft-skinned infantry. If assaulted by infantry open-topped armoured vehicles are destroyed automatically if the vehicle is damaged, in the same way as for soft-skinned. If hit by indirect fire then add +1 to the damage result roll. Note that all hits upon the upper surface of armoured vehicles count +1 penetration regardless of whether the target is open or not - so open-topped armoured vehicles suffer a double penalty: +1 penetration and +1 damage result

Shaped Charge

(p73) Never suffer the -1 penetration modifier for firing at long range.

Team (2 men)

(p73) A Team weapon shoots at full effectiveness so long as there are at least two men to serve it. If only one man remains then the weapon suffers a -1 to hit penalty, and (p42) -1 penalty to its morale. For squad-based team weapons, loader must remain within 1" or weapon suffers the -1 to-hit penalty.

Team (3 men)

(p73) A Team weapon shoots at full effectiveness so long as there are at least two men to serve it. If only one man remains then the weapon suffers a -1 to hit penalty, and (p42) -1 penalty to its morale. For squad-based team weapons, loader must remain within 1" or weapon suffers the -1 to-hit penalty.

Tough Fighters

(p91) When a tough fighter scores a casualty in close quarters against infantry or artillery, it can immediately make a second damage roll.

Spotting

Hidden enemy units are revealed if a dog team move to (or is deployed) within 24" of them.

HE (2")

(p68) PEN: +2, PIN: D3 (D6 if in building) - Infantry and artillery can go down to halve the hits taken

Assault

(p66) This weapon suffers no penalty 'to hit' when moving and shooting. In addition, infantry models armed with an assault weapon count as tough fighters (page 91). When a tough fighter scores a casualty in close quarters against infantry or artillery, it can immediately make a second damage roll.

Amphibious

(p118) An amphibious vehicle can move directly forward only over otherwise impassable deep water at half speed by means of an Advance action. A vehicle cannot make any other action whilst moving over water, cannot reverse, cannot turn, and will ignore all rules that otherwise oblige it to reverse or go down. A vehicle that is immobilised whilst in the water is destroyed along with any occupants. Vehicles can shoot whilst afloat except hull mounted weapons on vehicles equipped with floatation screen

Sniper (Sniper with rifle & pistol- Spotter with pistol)

(p91) When a sniper shoots using a Fire or Ambush order, the player can decide to use his scope. Rifle range changes to 36". If target is within 12" the shot misses automatically. Shot ignores negative to-hit modifiers except pinning markers and for missing assistant. Shot ignores gun shield and extra protection rules. If successful, always counts as exceptional damage and can pick any model in the unit. When not using scope, all members of team can fire any weapon they have and in assault can use the assault rule if pistol/submachine gun.

Internal volatile fuel tanks

Flame-throwing vehicles are more likely to be destroyed by damage, as explained on page 68 of the rulebook

Indirect fire

(p71)

Flamethrower

(p67). Flamethrowers never suffer to-hit penalties for cover or Down. Hits multiplied into D6 (D6+1 for vehicle flamethrower). Always hits top armour. No -1 PEN for long range. Gun shield and extra protection rules do not apply. Units hit take D3+1 pins and must always check morale (if fail, then destroyed). Flamethrower rolls D6 - on 1 it runs out of fuel. When rolling to damage vehicle with flamethrower, add +1 to damage effects chart.

Flak

All enemy units not currently down automatically fire at the attacking aircraft if it is within their firing arc and range, regardless of whether they have already taken an action or not that turn. Flak fire does not require an action. Line of sight ignored. Rolls to hit aircraft are always at a -2 penalty. Friendly flak units must test to hold their fire (page 67)

Fixed

(p66) When given Advance order, fixed weapons can rotate on the spot suffering a -1 to-hit penalty. Non-artillery Fixed can move normal 12" when given Run order.

Spotter

Spotters rules on page 71. Inexperienced Spotters cannot spot for inexperienced indirect fire weapon.
